

Tools

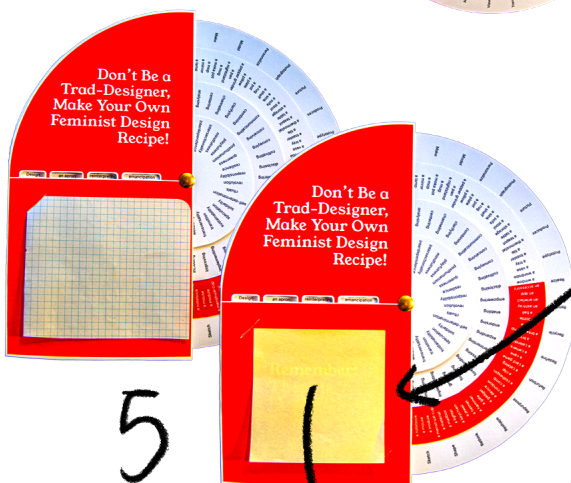

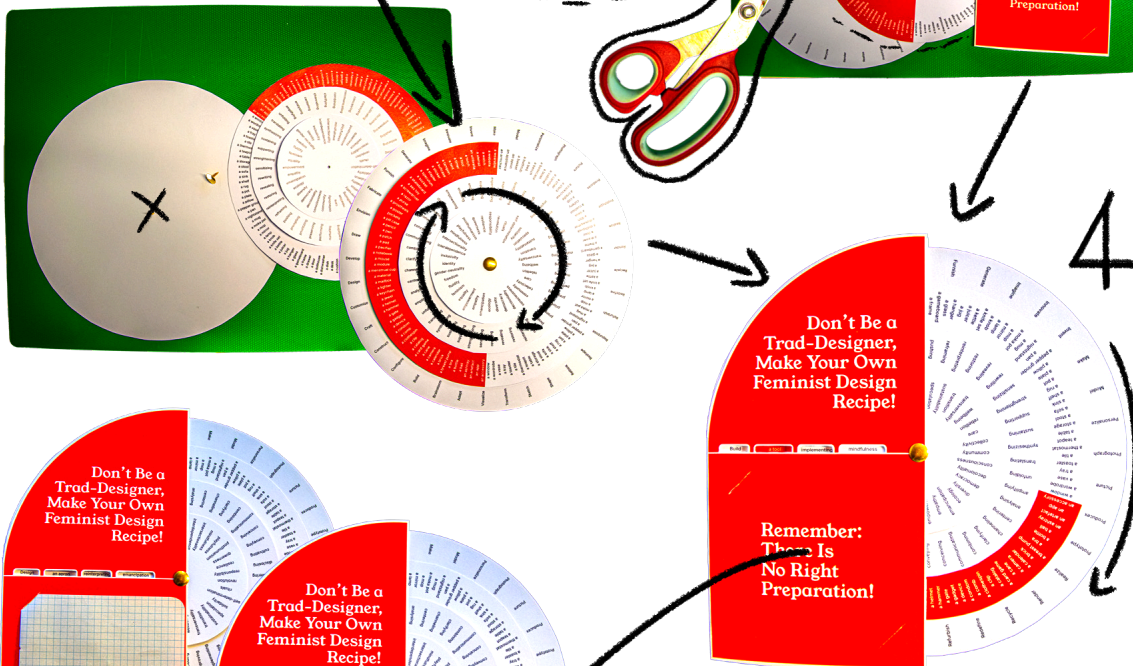

- Scissors
- Precision cutter
- Hole punch or thick needle
- Cutting mat
- A Single Prong Pin Fastener → 

Fold the previous piece in half and, using scissors, cut along all dashed outlines of all wheels.

Insert the single prong pin fastener through:
 1. the front of the initial piece
 2. all four wheels
 3. the back of the initial piece
 Then fold the prong flat behind it.

Use the open cuts on top of "Remember: there is no right preparation!" to insert small recycled pieces of paper, or as a support for Post-its.

Use your imagination to sketch the feminist design recipe displayed in front of you.
 If it doesn't inspire you, simply turn the wheels until it does.
